### REMARKS

The foregoing amendment is intended to correct an error in the original specification in which the incorrect serial number for one of the priority applications was included. Because the correct priority information was determinable from the title and filing date to which the original text referred, Applicants submit that no new matter is introduced by this amendment, and that the amendment should be entered. Also attached hereto is a copy of the original inventors' declaration in which the correct priority information is recited.

In view of the foregoing, Applicants believe all claims now pending in this application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested. If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at (510) 663-1100.

Respectfully submitted,
